Manufacturers

Our company is a leading manufacturer of Bio Mass Briquettes in India.

We use natural and sustainable materials (Agriculture waste) to produce our eco-friendly products, which provide a viable solution to the problem of waste management.

Our 5 acre plant is situated just 500 meters away from NH 6

**India's leading manufacturer.
Located 500mtrs from National Highway**

Our Vision

To reduce green house gases emissions by using Briquettes and pellets in boiler so that it will help to control the rising temperature globally.

Cleaner and Greener Environment

Biomass Briquettes & Pellets

Biomass briquettes and pellets are **renewable energy sources derived from organic materials such as agricultural residues, forestry waste, and other biomass**. These materials are processed and compressed into uniform shapes, making them an efficient and eco-friendly alternative to conventional fossil fuels.

**Eco-friendly alternative
to conventional fossil fuels**

Our Products

Biomass Briquettes

Our screw-pressed briquettes are far superior to the ram-pressed solid briquettes in terms of their storability and combustibility.

Biomass Pellets

Our biomass pellets are made from high-quality wood waste, agricultural residues, and energy crops.

Manufactured from 7 different types of agricultural waste

Available Briquettes Variants

	Soyabean	Groundnut	Mustard	Sawdust	AgroWaste
GCV	3400	3800	3500	4000	3800
Ash	15%–20%	8%–10%	10%–15%	10%	12%–15%
Moisture	6%	5%	6%	5%	7%
Carbon	47%	47%	47%	47%	47%
Sulphur	0%	0%	0%	0%	0%

5 variants available in briquettes

Available Pellet Variants

	Soyabean	Groundnut	Mustard	Sawdust	AgroWaste	Pinewood
GCV	3600	4000	3800	4200	4000	4300+
Ash	5%-6%	6%-8%	6%-8%	5%-6%	7%-8%	2%-3%
Moisture	5%	5%	5%	5%	5%	5%
Carbon	47%	47%	47%	47%	47%	47%
Sulphur	0%	0%	0%	0%	0%	0%

7 variants available in pellets

Our Team

Manufacturing Plant & Process

We are committed to delivering high-quality biomass briquettes and pellets that meet your energy needs while promoting environmental sustainability. Our products are **manufactured using advanced technology to ensure optimal performance, consistency, and reliability.** With our biomass solutions, you can enjoy efficient energy while contributing to a greener planet.

**300+ TONS PER DAY
SUPPLY CAPACITY**

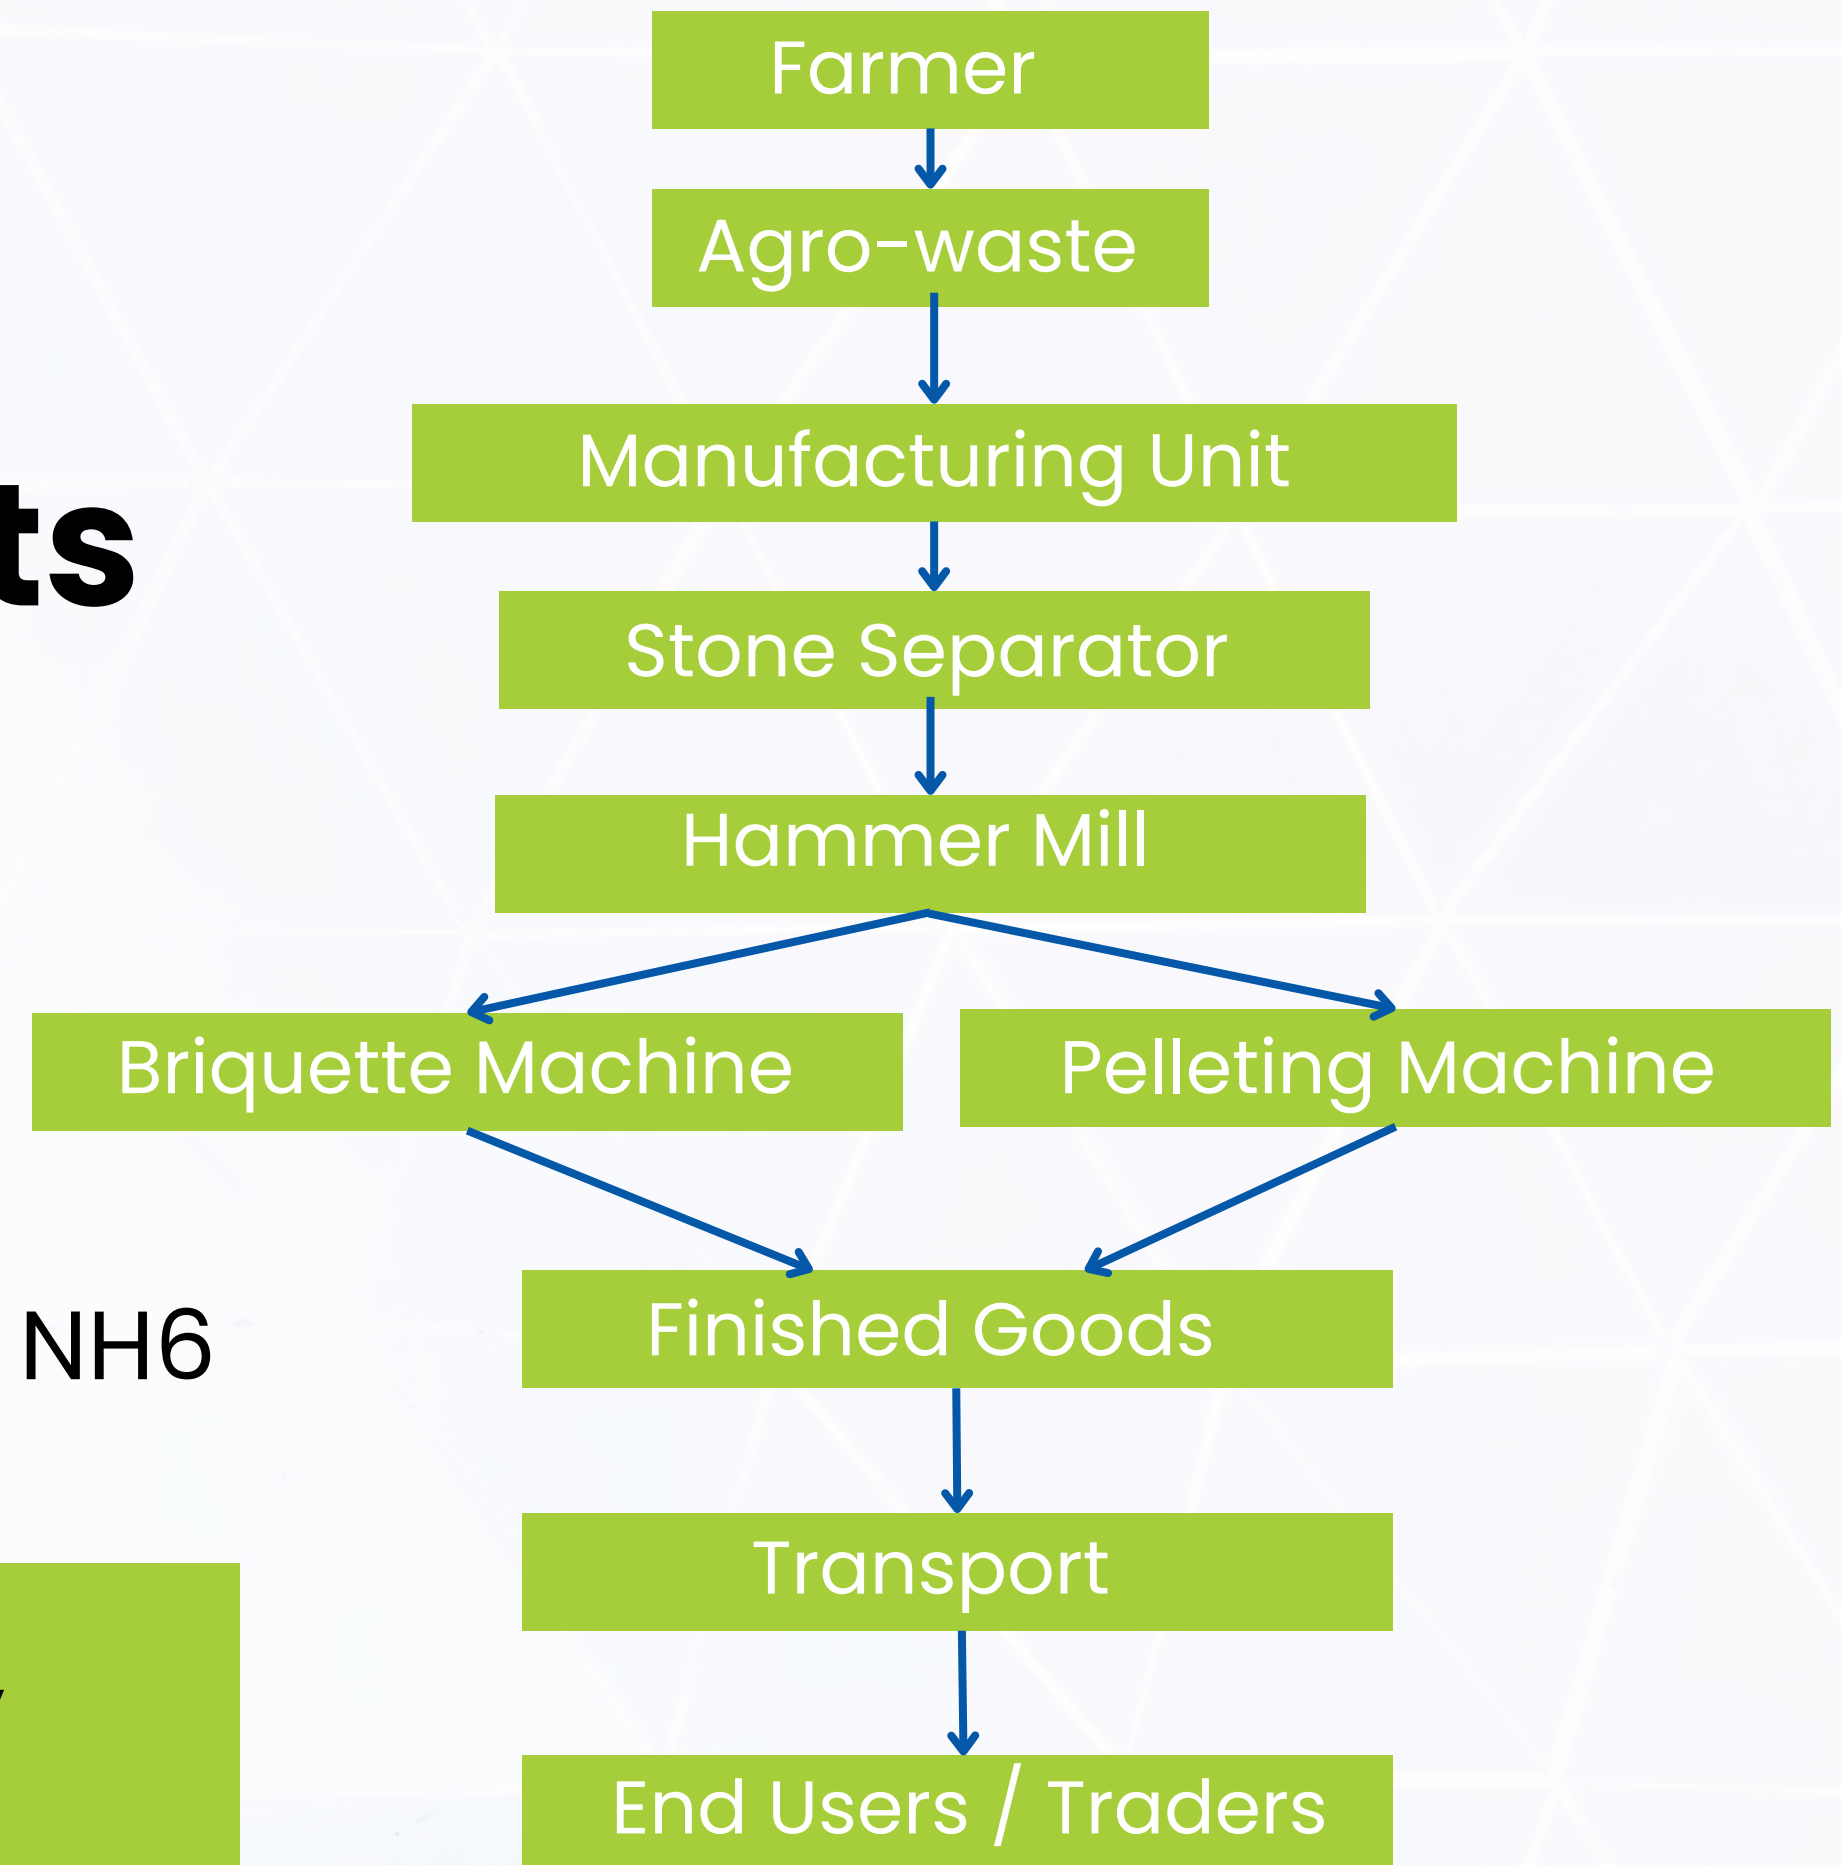

Manufacturing Process & Highlights

- ✓ State of Art Modern Machinery
- ✓ High Production Capacity
- ✓ High Storage Capacity
- ✓ Ease of Logistics, 500mtrs from NH6

Our channel partner are NM BIOENERGIES, Riddhi Siddhi Enterprises and Gee Seven Bioenergies

**Natural &
Sustainable Materials**

**Substitute
to Coal / FO**

**Real boost up
to rural economy**

**High thermal
value**

Carbon Credits Certification

Reduce your carbon footprint

Looking to make a real impact on the environment? We offer Carbon Credit Certification that ensures your efforts in reducing greenhouse gas emissions are recognized and can be traded in carbon markets.
